

## Join our team as a CRM Developer!

XIMEA develops tiny cameras for industry and science, from deep sea to space. We supply our cameras to customers all over the world - from Silicon Valley tech giants to small start-ups in the most peripheral places on earth. XIMEA invests time and resources to provide a haven for people who are passionate about pushing technological boundaries. In Münster, our core competencies lie in the areas of sales, marketing and support for global projects.

For our headquarters in Münster we are looking for

---

### Software Developer (m/f/d)

(Full-time, 40 hours/week, part-time possible)

---

#### Your responsibilities:

- Build and customize Microsoft Dynamics 365 CRM solutions using C#
- Extend Dynamics 65 with Azure Functions
- Contribute to agile projects and work in a DevOps environment
- Develop user-friendly interfaces with React and TypeScript
- Collaborate with cross-functional teams to deliver exceptional solutions
- Continuously improving our software development processes

#### Your benefits:

- An attractive, fair salary
- Allowances for meals and public transport
- 30 vacation days
- A great team and regular events
- A fantastic workplace in a perfect location at the harbor in Münster
- Water, coffee, tea and fruit
- Mobile working one day a week

#### Who we are looking for:

- You have strong C# development skills
- You have experience with DevOps tools and CI/CD
- Possible knowledge of React and TypeScript is a plus
- You work independently, in a structured and organized manner
- You have an agile mindset
- You are reliable, a team player, flexible and motivated

#### The next step?

Take the next step in your career! We look forward to receiving your complete application documents.
